

AFORE Expands Partner Program

Zentra Computer Technologies Joins AFORE Partner Program

Ottawa, Ontario, CANADA – July 1, 2009— AFORE Solutions announces that value-added reseller Zentra Computer Technologies Inc. has joined its Partner Program to supply AFORE's virtualization extension product. The ASE3300 improves network solutions for storage replication, disaster recovery, server clustering, application mobility and cloud computing over existing Ethernet and IP based wide area networks.

"We are excited that Zentra has come onboard. The company has an established reputation for providing advanced and comprehensive data center and enterprise solutions," said Alex Berlin, AFORE's CEO. "By working together, AFORE and Zentra aims to bring new and unique networking capabilities to the Canadian market."

Enabling the seamless extension of virtualized storage and computing environments, the ASE3300 'Virtual Wire' technology helps provide disaster recovery and application delivery solutions.

AFORE is a leader in the design and delivery of technology solutions for the networking industry. The company's Partner Program enables value added resellers and system integrators to provide advanced interconnectivity solutions for storage and computing networks. To find out more about the AFORE's Partner Program, please contact partners@aforesolutions.com.

Zentra Computer Technologies Inc. is a privately owned company founded in 1991. In addition to addressing basic data center requirements, Zentra specializes in data storage concepts and architectures, server and storage virtualization and high performance computing.

About AFORE Solutions:

AFORE is a leading provider of innovative technology to the networking industry.
